## Other Information

Suhagra 100 mg is easy to cope with sexual dysfunction the most serious degree. The content of Sildenafil is 100 mg. Is the recommended amount for the day, allowing to achieve excellent results and does not

cause harm.

Signals sent from the brain during sexual arousal flow to the reproductive system and start the process of releasing sexual enzymes. As a result, smooth muscles of the penis comes into a state of relaxation. In an unexcited view of the muscles of the penis collapse, so the blood in the muscle tissue receives a minimal amount. At the onset of muscle relaxation during arousal rapid filling of the cavernous bodies and an erection occurs. After sexual contact a special enzyme launches reverse the process of destruction of the enzymes that in erection. Sildenafil selectively inhibits this enzyme, contributing to the rapid appearance of a long and stable erection.
